

VAT Loan

A loan to support businesses to pay their VAT bills on time

A VAT Loan can be just what business owners need to ensure they can pay their VAT bills on time, while freeing up cash to continue trading.

Who is it for?

The quarterly VAT liability is a payment that every business knows it must make but often catches business owners unawares. Sometimes, even with the best plans in place, a VAT bill may be unexpectedly high which will affect business cash flow.

A VAT Loan can give you the security you need knowing your quarterly VAT payment is covered. It also means that business owners can spread the cost of the bill over the quarter, freeing up cash to use elsewhere in the business.

VAT Loan repayments can be made weekly or monthly over a 3 month period and business owners can choose the repayment cycle that suits them and their business best.

A straightforward and fast application process to meet immediate and forthcoming quarter's VAT payments.

- Maximum 3 month term
- From **£10,000** upwards
- Interest from **1.5%** per month
- Weekly or monthly repayments

*Subject to status
