

SIMPLE TRADE FINANCE

TRADE FINANCE

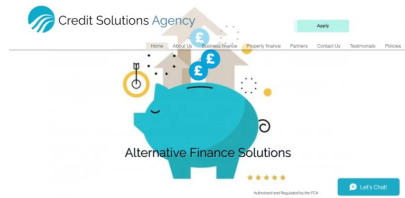

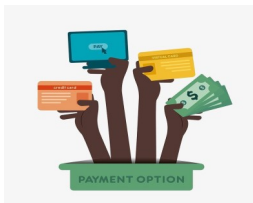

Manage your cash flow, maintain your working capital to ensure your business is a success when trading internationally.

If you import, or are thinking about importing, trade finance provides the funds you need to purchase stock, negotiate better prices and improve efficiencies.

Access funding to fulfil existing orders and accept new ones, whilst avoiding upfront costs and allowing you to benefit from supplier discounts.

Whether you're an established international business or considering diversifying your supply chain to include relationships abroad, our funders dedicated team are on hand to support you.

Trade internationally with confidence..

Purchase order or forecast sale

With our Trade Finance solutions you could access up to £10m in international trade funding, pay your suppliers in over 65 currencies and access our global network of offices.

Pre-shipment

We can make payment and provide guarantees to your suppliers with either a letter of credit, deposit or full pre-payment.

Post-shipment

We can make full payment to suppliers upon shipment of your goods.

Bad Debt Protection and Foreign Exchange

We can offer Bad Debt Protection to protect against customer non-payment and our competitive Foreign Exchange service can save money by allowing you to fix favorable exchange rates to use at a pre-agreed future date.

Invoice Finance

We can help reduce your cashflow gap even further by releasing the value of your outstanding invoices. Our Trade Finance service can work in tandem with our Invoice Finance facilities.
