

Asset Finance Solutions

Catering for All Asset Type..

We lend against wide range of assets, hard and soft, and aim to flex around your needs.

Asset finance allows a business to acquire business-critical assets, replace aging equipment, or expand current operations without putting additional pressure on cashflow or needing to raise a significant amount of working capital before purchase. We lend against wide range of assets, hard and soft, and aim to flex around your needs.

Advantages: to Asset finance such as: Spreading the cost of acquisition, Claiming back VAT,, interest and depreciation, Limited Liability, irradicating personal risk. Suitable for most Asset type, including equipment, plant machinery, IT, Vehicles, Furniture, Fit Outs,, etc.. **You can either Purchase, Rent or Refinance Assets**

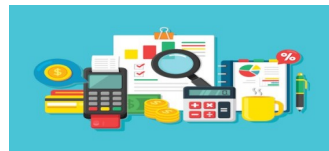

Sale and Hire Purchase (HP) Back

Sale and hire purchase (HP) back enables clients to finance a recently purchased asset, via an HP agreement, allowing them to release cash back into their business.

- Spread the cost of a recently purchased asset by introducing an HP agreement

As with an HP agreement, borrowers take ownership of the asset upon payment of the final installment (includes an Option to Purchase fee)
